1	Course Title:	Human	Physiology	I	
2	Course Code & Number:				
3	C 12 H	Credit	Theory	Hours	Lab.
3	Credit Hours:	Hours	Lecture	Exercise	Hours
		3	2	-	2
4	Study Level/ Semester at which this Course is offered:	2 <sup>nd</sup> Level / 1 <sup>st</sup> Semester			
5	Pre -Requisite (if any):	Biology			
6	Co -Requisite (if any):	None			
7	Program (s) in which the Course is Offered:	: Doctor of Dental Surgery (DDS)			
8	Language of Teaching the Course:	English			
9	Study System:	Semester based System			
10	Mode of Delivery:	Full Time			
11	Location of Teaching the Course:	Faculty of Dentistry			
12	Prepared by:	Dr. Sadeq Saad Abdulmogni			

### **II. Course Description:**

Physiology I familiarizes students with basic definitions and principles related to physiology The course emphasizes the concept of internal environment and homeostasis and the concept of feedback in a biological system. It also helps students to understand body fluid and cellular physiology. The course gives an overview on the physiology and functions of blood.

III. Course Intended Learning Outcomes (CILOs):

Referenced PLOS

	Upon successful completion of the course, students will be able to:			
	A. Knowledge and Understanding:	I, A or E		
al	Describe the functions of the different organelles in the human cell, and describe the transport system across the cell membranes.		A1	Describe the scientific basis of dentistry and the relevant biomedical and behavioral sciences which form the basis for understanding human growth, development and health.
a2	Describe the body fluids, compartments, composition & functions.		A2	Explain the structure and function of the human body in health and disease related to the practice of dentistry.
	B. Intellectual Skills:			
b1	Distinguish between physiological and pathological performance of body cells.		B1	Incorporate theoretical basic biomedical, behavioral and dental sciences with the clinical signs and symptoms for appropriate understanding of disease and its management.
b2	Integrate physiology with other sciences		B2	Apply critical thinking and evidence- based problem solving when providing patient's care.
	C. Professional and Practical Skills:	- 1		
c1	Choose and classify data obtained from physiological experiments.		C1	Obtain and record a comprehensive history, perform an appropriate physical examination, and carry out different investigations to reach a correct diagnosis and treatment.
c2	Determine the requirements of homeostasis.		C2	Detect pathological conditions related to the dental practice
	D. Transferable Skills:			
d1	Work separately or in a team to research and prepare a scientific topic.		D2	Use advanced information and communication technologies to enrich and diversify professional experience.
d2	Present clearly and effectively scientific topic in a tutorial, a staff meeting or the yearly scientific day.		D3	Demonstrate leadership and camwork skills with colleagues and other and health team for effective

### **IV. Course Contents:**

#### A. Theoretical Aspect:

No.	Units/Topics List	Sub Topics List	Number of Weeks	Contact Hours	Learning Outcomes (CILOs)
1	Physiology definition & organization of the cell	Functional morphology of the cell  - Transport across cell membranes  -Functional systems of the cell that make it a living organism.	Week 1 and 2	4	al
2	Body fluids, compartments, composition & functions.	<ul> <li>Distribution of body fluid</li> <li>Functions of water</li> <li>Osmosis, osmolality, isotonicity &amp; body water balance.</li> <li>Dehydration and hydration</li> </ul>	Week 3,4,5	6	al,a2, b2
3	Composition and functions of the blood.	<ul> <li>Composition of blood:</li> <li>Plasma</li> <li>Blood elements</li> <li>Functions of blood</li> </ul>	Week 6,7	4	a1, a2 b1,b2
4	Midterm Exam	MCQs and essay questions	Week 8	2	al,a2, bl
5	RBCs, Formation and general functions	<ul> <li>Red blood corpuscles</li> <li>Erythropoiesis and factors affecting it</li> <li>Most common types of normal and abnormal hemoglobin</li> <li>Anemia: Types of anemia</li> <li>RBCs functions</li> </ul>	Week 9,10	4	a1, a2 b1,b2

No.	Units/Topics List	Sub Topics List	Number of Weeks	Contact Hours	Learning Outcomes (CILOs)
6	Homeostasis	<ul> <li>Define the internal environment.</li> <li>Understand the importance of homeostasis.</li> </ul>	Week	2	b1, b2
7	1- WBCs: structures, classifications and functions 2. Hemostasis and its disorders	<ul> <li>White blood cells</li> <li>Types of leucocytes</li> <li>White blood cells functions</li> <li>Platelets</li> <li>Blood group</li> <li>Blood transfusion mechanism of haemostasis</li> <li>WBCs disorders</li> </ul>	Week 12,13, 14,15	8	a1, a2, b1,b2
8	Final Theoretical Exam	MCQs and essay questions	Week 16	2	a1,a2, b1, d2
	Number of Wee	ks /and Units Per Semester	16	32	

B. (	Case	<b>Studies</b>	and	<b>Practical</b>	Aspect:
------	------	----------------	-----	------------------	---------

No.	Tasks/ Experiments	Week Due	Contact Hours	Learning Outcomes (CILOs)
1	Separation of the blood	1 <sup>st</sup>	2	b2, c1
2	Measurement of the hemoglobin.	2 <sup>nd</sup>	2	b2,c2,
3	Erythrocyte sedimentation rate (ESR)	3 <sup>rd</sup>	2	b2, c1,c2
4	The hematocrit (H)	4 <sup>th</sup>	2	b2, c1,c2
5	Bleeding time and Clotting time	5 <sup>th</sup>	2	b2, c1,c2
6	Blood groups	6 <sup>th</sup>	2	b2, c1,c2
7	The white blood cells	7 <sup>th</sup>	2	b2, c1,c2
8	Review	8 <sup>th-</sup> 9 <sup>th</sup>	4	b2, c1,c2

No.	Tasks/ Experiments	Week Due	Contact Hours	Learning Outcomes (CILOs)
9	Practical Exam	10 <sup>th</sup>	2	b2, c1,c2
Numb	er of Weeks /and Units Per Semester	10	20	

### V. Teaching Strategies of the Course:

- Lectures
- Discussion
- Self-Learning
- Presentation
- Seminars
- Lab Experiments

#### VI. Assessment Methods of the Course:

- Quizzes
- Midterm Exam
- Final Exam
- Oral Exam
- Practical Exam
- Research
- Homework
- Group work

No.	Assignments	Week Due	Mark	Aligned CILOs (symbols)
1	Assignment: Research Homework Group work	12 <sup>th</sup>	5	b1, b2, d1, d2

### VIII. Schedule of Assessment Tasks for Students During the Semester:

No.	Assessment Method	Week Due	Mark	Proportion of Final Assessment	Aligned Course Learning Outcomes
1	Quizzes 1 & 2	4 <sup>th</sup> & 12 <sup>th</sup>	10	10 %	a1, a2
2	Midterm Exam	8 <sup>th</sup>	20	20%	a1,a2, b1
3	Assignment	12 <sup>th</sup>	5	5%	b1, b2, d1, d2
4	Practical Exam	10 <sup>th</sup>	15	15 %	b2, c1,c2
5	Final Exam	16 <sup>th</sup>	40	40%	al, a2, b1, b2
6	Oral Exam	16 <sup>th</sup>	10	10 %	a1, a2, b1, b2
	Total		100	100 %	

#### IX. Learning Resources:

#### 1- Required Textbook(s):

- 1- Guyton and Hall 2010, Text book of medical physiology, 12th Ed, Mississippi Medical Center, Jackson, Mississippi, USA
- 2- Laurie Kelly 2005, Essentials of Human Physiology for Pharmacy, 1st Ed. CRC Press, Pharmacy Education series

#### 2- Essential References:

- 1- Kelly, Essential of Human physiology. 8th edition.
- 2- Fox Human physiology, 10th edition, 2010.
- 3- Kaplan Medical step 1 physiology, 6th edition, 2006.
- 4- Mader, 2004, understanding Human anatomy and physiology, 5th edition.

#### 3- Electronic Materials and Web Sites etc.:

#### Websites:

- 1- www.csun.edu/science/biology/anatomy/anatomy.html

	X. Course Policies: (Based on the Uniform Students' By law (2007)
1	Class Attendance: Class Attendance is mandatory. A student is considered absent and shall be banned from taking the final exam if his/her absence exceeds 25% of total classes.
2	Tardiness:  A student will be considered late if he/she is not in class after 10 minutes of the start time of class.
3	Exam Attendance/Punctuality:  No student shall be allowed to the exam hall after 30 minutes of the start time, and shall not leave the hall before half of the exam time has passed.
4	Assignments & Projects: Assignments and projects must be submitted on time. Students who delay their assignments or projects shall lose the mark allocated for the same.
5	Cheating: Cheating is an act of fraud that results in the cancelation of the student's exam or assignment. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply.
6	Forgery and Impersonation:  Forgery/Impersonation is an act of fraud that results in the cancelation of the student's exam, assignment or project. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply.
7	Other policies:  The University official regulations in force will be strictly observed and students shall comply with all rules and regulations of the examination set by the Department, Faculty and University Administration.
