| 13 | <b>Date of Approval:</b>                                      | 2020-2021  |                     |                 |                   |

## II. Course Description:

This course is to train students to identify most common primary and secondary lesions affecting

oral and para-oral structures of hard and soft tissues and perform oral and extra oral examination and diagnosis by taking history, clinical examination, and other diagnostic tests and provide the basic knowledge of oral medicine, relationship of oral diseases and systemic diseases, and oral health.

| <b>III. Course Intended Learning Outcomes (CILOs) :</b><br>Upon successful completion of the course, students will be able to: |  | <b>Referenced PILOs</b><br>Learning out of program |  |    |
|--|--|--|--|----|
| <b>A. Knowledge and Understanding:</b>   |  | <b>I, A<br/>or E</b>                               |  |    |
| a1   | Demonstrate an understanding of the etiology pathobiology and clinical presentation of diseases of the oral and peri-oral tissues                                |  |  | A2 |
| a2   | Understanding the different types of tongue and lips diseases.   |  |  | A2 |
| a3   | Understanding the different types of taste disorders.  |  |  | A2 |
| a4   | Understanding the relationship of oral diseases and cardiovascular diseases.   |  |  | A4 |
| a5   | Understanding the relationship of oral diseases and hematological disorders.   |  |  | A4 |
| a6   | Understanding the relationship of oral diseases and bleeding and clotting disorders.   |  |  | A4 |
| a7   | Understanding the relationship of oral diseases and renal diseases.  |  |  | A4 |
| <b>B. Intellectual Skills:</b>   |  |  |  |    |
| b1   | Analyze, and correlate clinical laboratory data and investigations to help formulate a proper relevant treatment plans   |  |  | B4 |
| b2   | Select suitable materials and instruments to perform basic oral surgical procedures as well as prescribe different medications depending on the patient's needs. |  |  | B5 |
| <b>C. Professional and Practical Skills:</b>   |  |  |  |    |
| c1   | Choose the appropriate diagnostic and management techniques based on patient's   |  |  | C1 |

|                                |  |  |  |    |
|--------------------------------|--|--|--|----|
|                                | age, behavior capabilities, stage of dental growth/development and chief complaints.   |  |  |    |
| c2                             | Request special investigations needed to confirm the clinical, working or tentative diagnosis.   |  |  | C1 |
| c3                             | Select indicated clinical examination for specific oral lesion   |  |  | C1 |
| c4                             | Analyze and interpret data collected from the patient's history, clinical, radiographic and other investigations   |  |  | C6 |
| c5                             | Assemble and link the data obtained from the patient's history and clinical examination to develop the differential diagnosis of patients chief complaint. |  |  | C6 |
| <b>D. Transferable Skills:</b> |  |  |  |    |
| d1                             | Use internet and multimedia.   |  |  | D2 |
| d2                             | Manage time and resources  |  |  | D4 |

**(A) Alignment of Course Intended Learning Outcomes (Knowledge and Understanding) to Teaching Strategies and Assessment Methods:**

|    | Course Intended Learning Outcomes   | Teaching Strategies              | Assessment Strategies      |
|----|---|----------------------------------|----------------------------|
| a1 | Demonstrate an understanding of the etiology pathobiology and clinical presentation of diseases of the oral and peri-oral tissues | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |
| a2 | Understanding the different types of tongue and lips diseases.  | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |
| a3 | Understanding the different types of taste disorders.   | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |

|    |  |                                  |                            |
|----|--|----------------------------------|----------------------------|
| a4 | Understanding the relationship of oral diseases and cardiovascular diseases.         | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |
| a5 | Understanding the relationship of oral diseases and hematological disorders.         | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |
| a6 | Understanding the relationship of oral diseases and bleeding and clotting disorders. | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |
| a7 | Understanding the relationship of oral diseases and renal diseases.                  | Lectures<br>Discussion<br>Debate | Midterm exam<br>Final exam |

**(B) Alignment of Course Intended Learning Outcomes (Intellectual Skills) to Teaching Strategies and Assessment Methods:**

|    |  |                       |  |
|----|--|-----------------------|--|
| b1 | Analyze, and correlate clinical laboratory data and investigations to help formulate a proper relevant treatment plans   | Lecture<br>Discussion | Midterm exam<br>Final exam<br>Homework |
| b2 | Select suitable materials and instruments to perform basic oral surgical procedures as well as prescribe different medications depending on the patient's needs. | Lecture<br>Discussion | Midterm exam<br>Final exam<br>Homework |

**(C) Alignment of Course Intended Learning Outcomes (Professional and Practical Skills) to Teaching Strategies and Assessment Methods:**

|    | Course Intended Learning Outcomes   | Teaching Strategies | Assessment Strategies      |
|----|---|---------------------|----------------------------|
| c1 | c1- Choose the appropriate diagnostic and management techniques based on patient's age, behavior capabilities, stage of dental growth/development and chief complaints. | exercise<br>Debate  | Practical exam<br>Homework |

|    |   |                    |                            |
|----|---|--------------------|----------------------------|
| c2 | Request special investigations needed to confirm the clinical, working or tentative diagnosis.  | exercise<br>Debate | Practical exam<br>Homework |
| c3 | Select indicated clinical examination for specific oral lesion  | exercise<br>Debate | Practical exam<br>Homework |
| c4 | Analyze and interpret data collected from the patient's history, clinical, radiographic and other investigations  | exercise<br>Debate | Practical exam<br>Homework |
| c5 | Assemble and link the data obtained from the patient's history and clinical examination to develop the differential diagnosis of patients chief complaint | exercise<br>Debate | Practical exam<br>Homework |

**(D) Alignment of Course Intended Learning Outcomes (Transferable Skills) to Teaching Strategies and Assessment Methods:**

|    | Course Intended Learning Outcomes | Teaching Strategies                     | Assessment Strategies      |
|----|-----------------------------------|---|----------------------------|

### B. Case Studies and Practical Aspect:

| No. | Tasks/ Experiments                                | Week Due                           | Contact Hours | Learning Outcomes (CILOs) |
|-----|---|------------------------------------|---------------|---------------------------|
| 1   | Taking patient history                            | 1 <sup>st</sup> -2 <sup>nd</sup>   | 6             | c1-c5, d1-d2              |
| 2   | Clinical examination and taking intra-oral biopsy | 3 <sup>rd</sup> to 6 <sup>th</sup> | 9             | c1-c5, d1-d2              |
| 3   | Lab investigations                                | 7 <sup>th</sup>                    | 6             | c1-c5, d1-d2              |
| 4   | Take examples of differential diagnosis           | 8 <sup>th</sup> - 14 <sup>th</sup> | 21            | c1-c5, d1-d2              |

| No.  | Tasks/ Experiments | Week Due         | Contact Hours | Learning Outcomes (CILOs) |
|--|--------------------|------------------|---------------|---------------------------|
| 5  | Practical exam     | 15 <sup>th</sup> | 3             | c1-c5, d1-d2              |
| <b>Number of Weeks /and Units Per Semester</b> |                    | <b>15</b>        | <b>45</b>     |                           |

### V. Teaching Strategies of the Course:

- Lectures
- Debate
- Training
- Discussion
- Brainstorming

### VI. Assessment Methods of the Course:

- Midterm exam
- Final exam
- Practical exam
- Assignment

### VII. Assignments:

| No.          | Assignments  | Week Due                          | Mark      | Aligned CILOs (symbols) |
|--------------|--------------|-----------------------------------|-----------|-------------------------|
| 1            | Requirements | 1 <sup>st</sup> -15 <sup>th</sup> | 10        | b1-b2, c1-c5,d1-d2      |
| <b>Total</b> |              |                                   | <b>10</b> |                         |

### VIII. Schedule of Assessment Tasks for Students During the Semester:

| No. | Assessment Method | Week Due        | Mark | Proportion of Final Assessment | Aligned Course Learning Outcomes |
|-----|-------------------|-----------------|------|--------------------------------|----------------------------------|
| 1   | Midterm exam      | 8 <sup>th</sup> | 20   | 20%                            | a1-a6, b1-b2                     |

| No.          | Assessment Method | Week Due                          | Mark       | Proportion of Final Assessment | Aligned Course Learning Outcomes |
|--------------|-------------------|-----------------------------------|------------|--------------------------------|----------------------------------|
| 2            | Final exam        | 16 <sup>th</sup>                  | 50         | 50%                            | a1-a7, b1-b2                     |
| 3            | Practical exam    | 15 <sup>th</sup>                  | 20         | 20%                            | c1-c5, d1-d2                     |
| 4            | Assignment        | 1 <sup>st</sup> -15 <sup>th</sup> | 10         | 10%                            | b1-b2, c1-c5,d1-d2               |
| <b>Total</b> |                   |                                   | <b>100</b> | <b>100%</b>                    |                                  |

## IX. Learning Resources:

### 1- Required Textbook(s) ( maximum two ):

Mickel Glic,2014, Burket's oral medicine, 14th edition

### 2- Essential References:

Norman K. Wood and Paul W. Goaz,1997, Differential diagnosis of oral and maxillofacial lesions,.5th edition,

### 3- Electronic Materials and Web Sites etc.:

- [www.journal oral medicine pain](http://www.journal oral medicine pain)

## X. Course Policies: (Based on the Uniform Students' By law (2007)

|   |   |
|---|---|
| 1 | <b>Class Attendance:</b><br>Class Attendance is mandatory. A student is considered absent and shall be banned from taking the final exam if his/her absence exceeds 25% of total classes.     |
| 2 | <b>Tardiness:</b><br>A student will be considered late if he/she is not in class after 10 minutes of the start time of class.   |
| 3 | <b>Exam Attendance/Punctuality:</b><br>No student shall be allowed to the exam hall after 30 minutes of the start time, and shall not leave the hall before half of the exam time has passed. |
| 4 | <b>Assignments &amp; Projects:</b><br>Assignments and projects must be submitted on time. Students who delay their assignments or projects shall lose the mark allocated for the same.        |
| 5 | <b>Cheating:</b>  |

|   |   |
|---|---|
|   | <p>Cheating is an act of fraud that results in the cancelation of the student's exam or assignment. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply.</p>  |
| 6 | <p><b>Forgery and Impersonation:</b></p> <p>Forgery/Impersonation is an act of fraud that results in the cancelation of the student's exam, assignment or project. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply.</p> |
| 7 | <p><b>Other policies:</b></p> <p>The University official regulations in force will be strictly observed and students shall comply with all rules and regulations of the examination set by the Department, Faculty and University Administration.</p>                                     |

## III. Course Description:

This course is to train students to identify most common primary and secondary lesions affecting

oral and para-oral structures of hard and soft tissues and perform oral and extra oral examination and diagnosis by taking history, clinical examination, and other diagnostic tests and provide the basic knowledge of oral medicine, relationship of oral diseases and systemic diseases, and oral health.

#### IV. Course Intended Learning Outcomes (CILOs) :

Upon successful completion of the Course, student will be able to:

| A. Knowledge and Understanding:       |   |
|---------------------------------------|---|
| a1                                    | Demonstrate an understanding of the etiology pathobiology and clinical presentation of diseases of the oral and peri-oral tissues                                   |
| a2                                    | Understanding the different types of tongue and lips diseases.  |
| a3                                    | Understanding the different types of taste disorders.   |
| a4                                    | Understanding the relationship of oral diseases and cardiovascular diseases.  |
| a5                                    | Understanding the relationship of oral diseases and hematological disorders.  |
| a6                                    | Understanding the relationship of oral diseases and bleeding and clotting disorders.  |
| a7                                    | Understanding the relationship of oral diseases and renal diseases.   |
| B. Intellectual Skills:               |   |
| b1                                    | Analyze, and correlate clinical laboratory data and investigations to help formulate a proper relevant treatment plans  |
| b2                                    | Select suitable materials and instruments to perform basic oral surgical procedures as well as prescribe different medications depending on the patient's needs.    |
| C. Professional and Practical Skills: |   |
| c1                                    | Choose the appropriate diagnostic and management techniques based on patient's age, behavior capabilities, stage of dental growth/development and chief complaints. |
| c2                                    | Request special investigations needed to confirm the clinical, working or tentative diagnosis.  |
| c3                                    | Select indicated clinical examination for specific oral lesion  |
| c4                                    | Analyze and interpret data collected from the patient's history, clinical, radiographic and other investigations  |
| c5                                    | Assemble and link the data obtained from the patient's history and clinical examination to develop the differential diagnosis of patients chief complaint.          |
| D. Transferable Skills:               |   |

|    |                              |
|----|------------------------------|
| d1 | Use internet and multimedia. |
| d2 | Manage time and resources    |

## V. Course Contents:

### A. Theoretical Aspect:

| No.  | Units/Topics List                  | Sub Topics List   | Number of Weeks   | Contact Hours |
|--|------------------------------------|---|---|---------------|
| 1  | Diseases of tongue and lips.       | <ul style="list-style-type: none"> <li>• Introduction</li> <li>• Anatomy</li> <li>• Disease</li> </ul>  | 1 <sup>st</sup> , 2 <sup>nd</sup>   | 2             |
| 2  | Taste disorders.                   | <ul style="list-style-type: none"> <li>• Types</li> <li>• Related nerve</li> <li>• Causes and management</li> </ul>   | 3 <sup>rd</sup>   | 1             |
| 3  | Diseases of cardiovascular system. | <ul style="list-style-type: none"> <li>• Hypertion.</li> <li>• Coronary artery diseases</li> <li>• Valvular heart diseases.</li> <li>• Heart failure.</li> <li>• Arrhythmia.</li> <li>• Permanent pacemakers</li> </ul> | 4 <sup>th</sup> , 5 <sup>th</sup>   | 2             |
| 4  | Renal diseases.                    | <ul style="list-style-type: none"> <li>• Pathophysiology</li> <li>• Clinical features.</li> <li>• Oral manifestations.</li> <li>• Dental management.</li> </ul>   | 6 <sup>th</sup> , 7 <sup>th</sup>   | 2             |
| 5  | Midterm exam                       | •   | 8 <sup>th</sup>   | 1             |
| 6  | Hematological disorders.           | <ul style="list-style-type: none"> <li>• Process of hematopoiesis</li> <li>• Red blood cell disorders.</li> <li>• White blood cell disorders.</li> </ul>  | 9 <sup>th</sup> , 10 <sup>th</sup> ,<br>11 <sup>th</sup> , 12 <sup>th</sup> | 4             |
| 7  | Bleeding and clotting disorders.   | <ul style="list-style-type: none"> <li>• Pathophysiology</li> <li>• Classification</li> <li>• Identification of patients</li> <li>• Mangment</li> <li>• Prognosis</li> <li>• Oral health considerations.</li> </ul>     | 13 <sup>th</sup> , 14 <sup>th</sup> ,<br>15 <sup>th</sup>                   | 3             |
| 8  | Final exam                         | •   | 16 <sup>th</sup>  | 1             |
| <b>Number of Weeks /and Units Per Semester</b> |                                    |   | <b>16</b>   | <b>16</b>     |

| <b>B. Case Studies and Practical Aspect:</b>   |   |                                     |               |
|--|---|-------------------------------------|---------------|
| No.  | Tasks/ Experiments                                | Week Due                            | Contact Hours |
| 1  | Taking patient history                            | 1 <sup>st</sup> -2 <sup>nd</sup>    | 6             |
| 2  | Clinical examination and taking intra-oral biopsy | 3 <sup>rd</sup> to 6 <sup>th</sup>  | 9             |
| 3  | Lab investigations                                | 7 <sup>th</sup>                     | 6             |
| 4  | Take examples of differential diagnosis           | 8 <sup>th</sup> to 14 <sup>th</sup> | 21            |
| 5  | Final practical exam                              | 15 <sup>th</sup>                    | 3             |
| <b>Number of Weeks /and Units Per Semester</b> |   | <b>15</b>                           | <b>45</b>     |

### VI. Teaching Strategies of the Course:

- Lectures
- Debate
- Training
- Discussion
- Brainstorming

### VII. Assessment Methods of the Course:

- Midterm exam
- Final exam
- Practical exam
- Assignment

### VIII. Assignments:

| No.          | Assignments  | Week Due | Mark      |
|--------------|--------------|----------|-----------|
| 1            | Requirements | 1st-15th | 10        |
| <b>Total</b> |              |          | <b>10</b> |

### IX. Schedule of Assessment Tasks for Students During the Semester

| No.          | Assessment Method | Week Due                          | Mark       | Proportion of Final Assessment |
|--------------|-------------------|-----------------------------------|------------|--------------------------------|
| 1            | Midterm exam      | 8 <sup>th</sup>                   | 20         | 20%                            |
| 2            | Final exam        | 16 <sup>th</sup>                  | 50         | 50%                            |
| 3            | Practical exam    | 15 <sup>th</sup>                  | 20         | 20%                            |
| 4            | Assignment        | 1 <sup>st</sup> -15 <sup>th</sup> | 10         | 10%                            |
| <b>Total</b> |                   |                                   | <b>100</b> | <b>100%</b>                    |

### X. Learning Resources:

• **1- Required Textbook(s) ( maximum two ):**

Mickel Glic,2014, Burket's oral medicine, 14th edition

**2- Essential References:**

Norman K. Wood and Paul W. Goaz,1997, Differential diagnosis of oral and maxillofacial lesions,5th edition,

**3- Electronic Materials and Web Sites etc.:**

- [www.journal oral medicine pain](http://www.journal oral medicine pain)

### XI. Course Policies: (Based on the Uniform Students' Bylaw (2007))

|   |   |
|---|---|
|   | <b>Class Attendance:</b>  |
| 1 | Class Attendance is mandatory. A student is considered absent and shall be banned from taking the final exam if his/her absence exceeds 25% of total classes. |
|   | <b>Tardiness:</b>   |
| 2 | A student will be considered late if he/she is not in class after 10 minutes of the start time of class.  |
| 3 | <b>Exam Attendance/Punctuality:</b>   |

|   |  |
|---|--|
|   | No student shall be allowed to the exam hall after 30 minutes of the start time, and shall not leave the hall before half of the exam time has passed.   |
| 4 | <b>Assignments &amp; Projects:</b><br>Assignments and projects must be submitted on time. Students who delay their assignments or projects shall lose the mark allocated for the same.   |
| 5 | <b>Cheating:</b><br>Cheating is an act of fraud that results in the cancelation of the student's exam or assignment. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply.  |
| 6 | <b>Forgery and Impersonation:</b><br>Forgery/Impersonation is an act of fraud that results in the cancelation of the student's exam, assignment or project. If it takes place in a final exam, the penalties stipulated for in the Uniform Students' Bylaw (2007) shall apply. |
| 7 | <b>Other policies:</b><br>The University official regulations in force will be strictly observed and students shall comply with all rules and regulations of the examination set by the Department, Faculty and University Administration.                                     |
